

Child Nutrition Reauthorization

Tell the Senate to #ModernizeWIC!

It's Time to Expand Eligibility and Modernize WIC

With the Healthy Meals, Healthy Kids Act having been advanced by the House Education & Labor Committee, it's time for the Senate to take action for a more modern WIC. We're urging the Senate to allow for remote certifications after the COVID-19 pandemic and expand postpartum and child eligibility to make WIC more accessible and enhance the program's public health impact. To encourage others to take action and contact their Senators, use the sample social media language below and [click here](#) to download graphics!
